I'm a WordPress Developer with 4+ years of experience building scalable, secure, and high-performance web platforms using custom WordPress architectures.

Currently, I work at Tringapps Research Labs, contributing to a large-scale enterprise government platform (TNPL) that handles high traffic and complex content structures.

I specialize in:

- Custom WordPress themes & plugins (no page-builder dependency)
- PHP (OOP), WordPress Core & REST APIs
- ACF-driven dynamic content systems
- Performance optimization & Core Web Vitals
- SEO, accessibility (WCAG), and security best practices

I've collaborated closely with product managers, designers, QA, and SEO teams to deliver production-ready, maintainable solutions in Agile environments.

Willing to relocate: Anywhere
